Before And After The Destruction Of Saskatchewan Landing Bridge

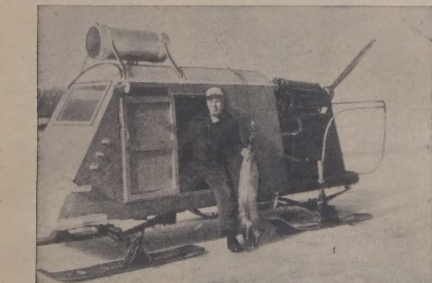

This close-up picture shows the ice surging toward the new Saskatchewan Landing bridge over the South Saskatchewan river just prior to its destruction. This year's breakup of the South Saskatchewan river is described as the worst in 40 years.

The river in the bridge area is shown free of ice just after the sweeping away of the bridge.

Overhead picture of the bridge, showing length of missing spans between piers.

BREX FOX OUTMANOEUVRES SNOWMOBILE FOR A WHILE—Harold Sheppard gave chase to a fox on the ice, Lake Simcoe, Ont., and had an exciting half hour as his snowmobile, travelling at 40 miles an hour, zigzagged on the path of the fox. The animal—as smart as he is reputed to be—soon got wise to the fact that the machine couldn't turn quickly and, after a fast spurt, he would dodge suddenly, then sit and wait while the machine turned round. But Brey Fox made one misjudgment and sagged when he should have sagged. So now he's a trophy for Mr. Sheppard.—Central Press Canadian.

—Central Press Canadian
SURVIVES BUT FLAYS
DID—Three-year-old Mary Ann Church was found alive after nearly two days in the dense Wisconsin woods near Granite Falls. Mary Ann, her sister, Cathy, and cousin, Steven Kennedy, both five, were lost in the woods after they playfully chased a porcupine from near their home during a snowstorm. The other two children were found dead, lying face down, after they apparently fell asleep and froze to death.

—Central Press Canadian
CO-OPERATION—Members of a U.S. tank company go to work on one of their vehicles after shooting at a Communist bunker in Korea. This system works fine when the tank is top in weight and the man below it tall.

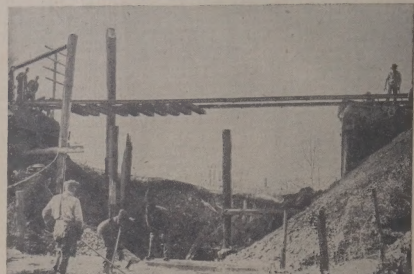

HAN WHALE MARKS TO PROVE STORY—Fisherman Louis Anderson, 72, shows how he hauled an 11-ton killer whale's eye to make it release its hold on his 14-foot rowboat off Bonita Beach, Calif. The tooth marks on the side of the boat and the hole in the bottom were made by the whale's teeth. Anderson and his companion, Elmer Brown, paddled desperately toward a nearby rock. The boat went under as they reached it. They were rescued later by a helicopter.—Central Press Canadian.

GREETINGS—Virginia Mayo was greeted on Easter morning with a basketful of bouquets. The Warner Brothers star's latest movie was Captain Horatio Hornblower and Starlin.

Pictures Of Recent Floods In Alberta

At Bearspaw, 13 miles west of Calgary, melting snow in the Alberta foothills washed out this main-line track. Traffic was continued by a shuttle bus service while repairs were made.

—Central Press Canadian
AT A DISTANCE IT LOOKS PRETTY—Capable of blowing a hole in a steel-lined trench, this mine becomes an attractive display when exploded humanely. It was planted by the North Korean forces to interfere with U.S. naval action but was set off by a mine-sweeper.

Around Medicine Hat, Alta., floods washed out roads, bridges and houses. Here railway coaches are perched on a small bridge over Stevie Persons creek to hold the concrete pillars from being washed away.

A three-foot rise in the level of streams through Medicine Hat flooded the city's Purmal subdivision. A factory, seen in background is protected by dykes.—Central Press Canadian Photos.

—Central Press Canadian.
RUSSIAN'S "INTERCONTINENTAL BOMBER"—This sketch, showing what purports to be a new Russian long-range heavy bomber, was made public in the latest issue of a U.S. air magazine. Drawn by British aviation artist, John Hay Stevens from data obtained from behind the Iron Curtain, the Red bomber is seen to have six turbine-propeller engines and a swept-back wing.

JAP PEACE TREATY BECOMES FACT—Almost seven years after hostilities ceased between Japan and the U.S., the peace treaty, drafted for years, has finally been ratified by the U.S. Senate. Senators Tom Connally, (left), and Alexander Wiley, seen on a Senate Secretary Leslie Balle, affix their signatures to the pact. Canada will soon sign a similar treaty with Japan.—Central Press Canadian.
